Information Systems graduate with an interest in data analysis, web development, and information systems management. During my studies, I gained experience through internships, organizational involvement, and academic projects that helped me strengthen my technical skills, communication, teamwork, and problem-solving abilities. I am accustomed to working in a disciplined, detail-oriented, and responsible manner, and I am highly motivated to continue learning and growing in the workplace. I am ready to contribute professionally and deliver my best performance in a professional work environment.
